

Willow Bend Fall 2008 Volunteer Teacher Field Trip Training!!! August 23, 9am-2pm

If you are interested in helping Flagstaff kids learn more about sustainability and the outdoors in a fun, hands-on way, please join Willow Bend on August 23rd, from 9am-2pm for our Volunteer Teacher Field Trip Training!

During the morning portion (9-11am), participants will learn about general child development theory and understand how to apply this information to different grade levels through games and activities.

The afternoon portion (11:30am-2pm) will focus on how to lead three of our field trips: the basic Willow Bend Field Trip, the Kindergarten Natural Senses Field Trip, and the 2nd grade Whacky Weather Field Trip.

Lunch will be provided for full-day participants. **Volunteers must receive this training in order to lead field trips.** For volunteers that received our training in the past, the morning session is optional, but please join the afternoon portion to become acquainted with our new field trips.

In the 2007-2008 school year, Willow Bend led over 50 field trips; *that's over 1250 students we were able to reach with your help!* Please continue this **invaluable form of support** and join us on August 23rd! **RSVP by August 21st** to Sapna Sopori at 779-1745 or sapna@willowbendcenter.org.
